1 What do I have to do over the course of my project?

First of all: congratulations with your awarded grant application! To allow us to monitor your project's progress, please complete a few more steps in My ZonMw.

At several points during the course of your project, you will need to upload documents to My ZonMw:

- At the start of your project, the first document you need to upload is the notification form.
- You are required to register “products”, which are the results, outputs, and publications of your project. Uploading files is not possible. You can share your product by submitting a URL or DOI. In my ZonMw the task of registering products becomes available at the same time as the task of uploading a notification form. All products resulting from ZonMw funding must be submitted to us, including those produced after the official end date of your project. Therefore, this task remains open even after your project has ended.
- If you are required to submit a progress report, a task for this will automatically become available in My ZonMw 60 days before the deadline.
- A task that allows you to upload your final report will become available in My ZonMw 120 days before the specified end date of your project.

As soon as a task becomes available, you will receive an email to inform you of your submission deadline.

Notification form

Upload the notification form to My ZonMw within **4 weeks** of the date of the award letter.

Reporting project results

Publications with respect to and the results of the project must be offered to ZonMw up to four years after the project has been completed. To add project results, please complete the appropriate form. You can find this form in the task in My ZonMw.

Progress report

To submit a progress report, please complete the appropriate form. You can find this form in the task in My ZonMw.

Final report

To submit a final report, please complete the appropriate form. You can find this form in the task in My ZonMw.

2 Notification form

If you are the **applicant** of the project the task 'Prepare notification form' (Dutch: *Meldingsformulier invullen*) will be added to your My ZonMw inbox (Figure 1).

The screenshot shows the ZonMw dashboard. At the top, there's a 'Welcome, Aanvrager20!' message and a 'How to Apply' section. Below this, the 'Upcoming Tasks' section is visible. It contains a table with columns: File Number, Task, Appl. ID, Call, Project title, Enabled Date, and Started Date. The task 'Prepare notification form' is highlighted with a red box.

File Number	Task	Appl. ID	Call	Project title	Enabled Date	Started Date

Once you have completed all sections, you can submit the form by clicking on 'Save Draft & continue' button (figure 2) and then on 'Yes, submit entire form now!' button (Figure 3). If compulsory questions have not yet been answered, the red block indicates which section and question still needs to be completed.

- Click on the section number in the red text to go directly to the question that still needs to be completed.
- Click on **Exit** if you do not want to submit the notification form yet and would like to continue working on it later. The notification form will be saved in your inbox.
- Click on 'Generate new PDF' if you want to export the entire notification form with entered text to PDF. **Please note:** uploaded attachments are not visible in this PDF.

Figure 3: Submitting the notification form.

After submitting the notification form, you will be directed to your inbox, where you will see the message 'Your form was submitted successfully'. You will receive an automatic email as confirmation of receipt. The form will now be visible in 'My ZonMw' for the ZonMw staff involved in the relevant programme.

3 Entering products

If you are the project leader, you can submit your project results during the project and after it has been completed. This includes not only publications, but also educational materials, datasets, practical applications, and commercial products (Figure 8). You can submit a URL or DOI for your product. Uploading files is not possible.

If you do not yet have a URL or DOI for your product and cannot obtain one through your organisation, you can use Zenodo (zenodo.org). Zenodo is a free platform that allows you to create a DOI for any type of product in just a few minutes. You can find instructions on how to do this [here](#).

In My ZonMw, you can register products for each separate project. Find the correct page by logging into My ZonMw and clicking on 'My Applications' (Figure 4). Click on the right blue button 'expand to full sized panel' to see a full overview of all your current and completed applications.

You will receive an automatic email as confirmation of receipt. The form will now be visible in 'My ZonMw' for the ZonMw staff involved in the relevant programme. Your product will also be visible on the ZonMw website the next day.

Please note: If your product is confidential and may not (yet) be visible on our website, for example due to patents, intellectual property rights, or competitive considerations, please contact your ZonMw programme contact person. As soon as the product is allowed to be shown on the website, please submit the product via My ZonMw.

The 'Upload products' button will remain available under the 'Applications I Am Linked To' after the project has been completed.

4 Viewing documents

You can view documents that you have submitted by logging in to My ZonMw. Click on the right blue button 'expand to full sized panel' besides 'My Applications' (Figure 4) for an overview of all current / completed applications. Click on the desired file number and then click on the 'Documents' tab (figure 10). Here you will see an overview of all the documents you have submitted.

5 Progress report(s)

If you are the **project leader** of the project, we may ask you to share a progress report with us during the course of your project. This allows ZonMw to monitor your project. You will receive a request by email 60 days before the submission deadline of the progress report. The task to submit your progress report will be visible in My ZonMw (Figure 11). You will receive the conditions and form associated with the progress report by email.

Click on the task prepare and submit progress report (Dutch: *Voortgangsverslag opstellen en indienen*). This will take you to the form (Figure 12).

5.1 Structure of a progress report

The progress report form consists of different sections:

- The sections in the progress report are displayed as separate tabs. At the top of the screen you can see the title of the section you are working in (**1** in Figure 12).
- Click on the title of a section (**2** in Figure 12). This will take you to the questions within this section.
- The 'Print Form' and 'Generate new PDF' buttons (**3** in Figure 12) are tools to share the progress report (with or without entered text) **offline** with your colleagues in Word or PDF and to save it for your own administration. You will need to complete and submit all the information in the **online** progress report.
- With the 'Return to Index' button (**3** in Figure 12), you will see an overview of all the sections of the progress report (Figure 13). The percentage bar under the section shows the extent to which the compulsory answers of the sections have been answered.

Please note: Make sure you always check all sections. Clicking on the section title will take you to the questions in this section.

1.4 Realisatiegegevens

• Bij de start van uw project is een begroting vastgesteld. Nu het project wordt afgerond vragen wij u om de realisatiecijfers in te voeren.

U kunt dit doen door hieronder op de link 'Pas projectbegroting aan' te klikken. U komt dan in een scherm waar deze samenvatting van de projectbegroting per post aangepast kan worden. Wilt u tussentijds de realisatie opslaan? Gebruik dan de knop 'Sluiten en tijdelijk opslaan'. U kunt dan op een later moment verder.

Op het moment dat u zeker weet dat alles juist is ingevoerd gebruikt u de knop 'Definitief indienen realisatie'. Hiermee komt u weer terug bij uw eindverslag en kunt u verder werken.

Klik hier om uw realisatiegegevens in te vullen: * [Edit summary of the budget](#) 4

Het is belangrijk dat u de realisatiecijfers ook daadwerkelijk heeft ingediend als u dit heeft afgerond. Heeft u op de knop 'Definitief indienen realisatie' gedrukt? *

As part of the final report, you will usually be required to fill in the realisation data in section 1.4. To do this, click on the 'Edit Project Costs' link (4 in Figure 16). **Please note:** This opens the same budget module you used to submit your budget during the application process (figure 18). You can adjust each budget item to reflect realisation. Once you are sure that you have completed every tab correctly, click the 'Submit final budget' (Dutch: *Definitief indienen realisatie*) button. This will take you back to your final report.

Project application: enter project budget

Use the tabs above to enter the main items for your budget. After your input has been saved, you will see the total overview of everything you have entered in the current "Overview" tab.

Do you want to save the budget in the meantime? Then use the button "Close and temporarily save". You can then continue at a later time. As soon as you are sure that everything has been entered correctly, use the 'Submit final budget' button.

Caution! When you press the button "Submit final budget" you can no longer modify the budget in your application.

Completion of project: enter realization data

Use the tabs above to enter the financial realization data of your completed project. You will see the amount requested for this project in the "Requested" column. The "Allocated" column shows the amount allocated by ZonMw at the start of the project. The moment you enter data, you will see it in the column "Last entry".

Do you want to save the realization in the meantime? Then use the button "Close and temporarily save". You can then continue at a later time. As soon as you are sure that everything has been entered correctly, use the button "Final submission of realization". This will take you back to your final report and you can continue working.

Caution! When you press the button "Submit final realization" you can no longer modify the realization data in the final report.
