

# Projecten Programma Goed Gebruik Geneesmiddelen

Dit overzicht bevat projecten uit de GGG open rondes, GGG registrerondes en de projecten opgenomen vanuit de programma's Doelmatigheidsonderzoek Farmacotherapie, Dure Geneesmiddelen, Priority Medicines Ouderen, Evidence based Medicine in Old Age, Priority Medicines Kinderen, Priority Medicines Antimicrobiële Resistentie. Voor details van een project zie [www.zonmw.nl](http://www.zonmw.nl) en het projectnummer in de zoekfunctie.

## Sessie 1 Stimulering van drugrediscovery

| Progr | Dossierr  | Titel                                                                                                                                             | Projectleider/ instelling | Einddatum |
|-------|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|-----------|
| DOF   | 170881007 | Optimal treatment of rhinosinusitis-like symptoms: Double-blind placebo controlled randomized study with prednisolone versus usual care treatment | Dr. A.P.E. Sachs          | 1-9-2010  |

## Sessie 2 Onderzoeksdiseins: to RCT or not to RCT?

| Progr | Dossierr  | Titel                                                                                                                                                              | Projectleider/ instelling | Einddatum |
|-------|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------|-----------|
| HTA   | 152002025 | Novel modelling approaches to reconcile the paradigms of randomization and representativeness in (cost-) effectiveness analyses: The case of Rheumatoid Arthritis. | Dr. P.M.J. Welsing        | 1-4-2012  |
| OR4   | 836041016 | Analgesedation after cardiac surgery in infants: A "model-based" nation-wide randomized controlled trial.                                                          | Dr. M. van Dijk           | 1-2-2019  |

## Sessie 3 Focus op gendervraagstukken in geneesmiddelenonderzoek

| Progr | Dossierr  | Titel                                                                                                                                                                                             | Projectleider/ instelling            | Einddatum |
|-------|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|-----------|
| Dof   | 94527003  | A randomized controlled trial to assess the effectiveness of aspirin and anticoagulant treatment in women with unexplained recurrent miscarriage: ALIFE study (Anticoagulants for Living Fetuses) | Dr. S. Middeldorp                    | 1-7-2009  |
| Dof   | 170885601 | Assessment of Perinatal Outcome after Sustained Tocolysis for Early Labour (APOSTEL II)                                                                                                           | Dr. J.A.M. van der Post              | 1-5-2011  |
| Dof   | 171102009 | Remifentanyl patient-controlled analgesia (RPCA) vs epidural analgesia (EA) during labour.                                                                                                        | Middeldorp                           | 1-1-2015  |
| OR2   | 836021004 | Anti-TNF during pregnancy: safe for growth and development of the child?                                                                                                                          | Dr. C.J. van der Woude               | 1-4-2016  |
| OR4   | 836041014 | Insulin regime versus oral therapy for diabetes in pregnancy: the SUGAR-DIP trial                                                                                                                 | Drs. D.N. Voormolen - van Munster MD | 1-12-2019 |
| DOF   | 94501010  | Prenatal fetal RhD bloodgroup typing to enhance efficiency of antenatal anti-D immunoprophylaxis in RhD negative pregnant women                                                                   | Schoot, dr. C.E. van der             | 1-8-2005  |
| Dof   | 171102020 | The OPTIMIST trial: OPTIMalisation of cost effectiveness through Individualised FSH Stimulation dosages for IVF Treatment.                                                                        | Broekmans                            | 1-6-2016  |
| OR1   | 836011012 | Levothyroxine for euthyroid women with recurrent miscarriage and positive TPO antibodies: a randomized controlled trial (T4LIFE-trial)                                                            | M. Goddijn / AMC                     | 1-4-2016  |
| OR1   | 836011020 | To treat or not to treat: depression during pregnancy and the impact on perinatal outcomes                                                                                                        | N. Roeleveld / UMC St Radboud        | 1-4-2016  |
| OR1   | 836011023 | Superovulation in Intra uterine insemination: rFSH or Clomifene citrate?                                                                                                                          | M.H. Mochtar / AMC                   | 1-6-2017  |

|     |           |                                                                                                                                 |                                    |           |
|-----|-----------|---------------------------------------------------------------------------------------------------------------------------------|------------------------------------|-----------|
| OR2 | 836021011 | Tapering antidepressants in pregnancy: a pragmatic multicenter RCT to investigate risk and benefits for mother and child        | Dr. M.P. Lambregtse - van den Berg | 1-4-2018  |
| OR3 | 836031002 | "Why should I use my inhaler?" Development and testing of an adolescent adherence patient tool for asthma (ADAPT asthma -study) | Prof. dr. M.L. Bouvy PhD           | 1-4-2017  |
| OR3 | 836031014 | Antiplatelet therapy for patients undergoing transcatheter aortic valve implantation (TAVI)                                     | Drs. V.J. Nijenhuis                | 1-11-2017 |
| OR4 | 836041006 | Low dose aspirin in the Prevention of Recurrent Spontaneous Preterm Labour – the APRIL study                                    | Dr. M.A. de Boer                   | 1-5-2018  |

## Sessie 4 Geneesmiddelen bij kinderen: kansen en afwegingen

| Progr. | Dossiernr | Titel                                                                                                                                                                 | Projectleider/instelling                                          | Einddatum |
|--------|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------|-----------|
| PMK    | 90700304  | Can genes predict kidney failure induced by tacrolimus therapy in pediatric transplant patients?                                                                      | Dr. S.N. de Wildt                                                 | 1-9-2015  |
| PMK    | 90713494  | Determination of new age-specific dosing guidelines for propofol in newborn infants using pharmacokinetic/pharmacodynamic (PK/PD) modeling as an innovative approach. | Dr. S.H.P. Simons                                                 | 1-8-2017  |
| PMK    | 92003549  | Daily interruption of sedation + protocolized sedation (DSI+PS) vs. protocolized sedation (PS) in critically ill children.                                            | Prof. dr. M. de Hoog                                              | 1-7-2017  |
| PMK    | 92003555  | Verschillende fenotypes van piepen op de kinderleeftijd: een genetische achtergrond                                                                                   | Prof. dr. D.S. Postma                                             | 1-1-2014  |
| PMK    | 92003558  | Steroid metabolism and cardiovascular risk factors in children with congenital adrenal hyperplasia                                                                    | Dr. H.L. Claahsen-van der Grinten                                 | 1-1-2016  |
| NKFK   | 113200951 | Pediatric Dosing Module                                                                                                                                               | T.M. van der Zanden/NKFK                                          | 1-6-2015  |
| NKFK   | 113200952 | Consumenten informatie over de toepassing van medicijnen bij kinderen                                                                                                 | T.M. van der Zanden/NKFK                                          | 1-4-2016  |
| PMK    | 113201002 | Moderately early hydrocortisone for ventilated preterm infants at risk for bronchopulmonary dysplasia: A multicenter randomized placebo controlled trial              | Dr. A.H.L.C. van Kaam/Academisch Medisch Centrum                  | 25-8-2017 |
| PMK    | 113201003 | An efficacy, safety and pharmacokinetic study on the short-and long-term effects of Metformin in obese children/adolescents.                                          | Dr. M.M.J. van der Vorst/St. Antonius Ziekenhuis                  | 1-5-2017  |
| PMK    | 113201004 | A new paediatric formulation of valacyclovir for the prophylaxis and treatment of VZV and HSV infections in children                                                  | Dr. A. Warris/UMC St Radboud                                      | 1-9-2017  |
| PMK    | 113201006 | Effectiveness and safety of asthma controller therapy in the treatment of children with asthma                                                                        | Dr. K.M.C. Verhamme/Erasmus MC                                    | 1-1-2016  |
| PMK    | 113201007 | Novel methods to assess and compare drug effects in pediatrics (EVIPED)                                                                                               | Prof. dr. J. van der Lei, Erasmus MC                              | 1-1-2016  |
| PMK    | 113202001 | Infliximab top-down in pediatric Crohn's disease                                                                                                                      | Dr. L. de Ridder/Erasmus MC                                       | 1-3-2017  |
| PMK    | 113202004 | Towards a framework for development and implementation of pediatric oral liquids; amlodipine and lorazepam as proof of concept                                        | Dr. L.M. Hanff/Erasmus MC                                         | 1-1-2017  |
| PMK    | 113202005 | Methylphenidate Treatment and the Developing Brain in Attention-Deficit/Hyperactivity Disorder                                                                        | Dr. P.J. Hoekstra/Universitair Medisch Centrum Groningen          | 15-5-2016 |
| PMK    | 113202007 | Pediatric microdosing: elucidating age-related changes in oral absorption to guide dosing of new formulations                                                         | Dr. S.N. de Wildt/Erasmus MC                                      | 1-6-2016  |
| PMK    | 113202009 | The effect of intranasal insulin on development and behaviour of children with Phelan-McDermid syndrome.                                                              | Dr. C.M.A. van Ravenswaaij/Universitair Medisch Centrum Groningen | 1-10-2015 |
| Prio   | 113205007 | New drugs for rare diseases: cost-effectiveness modelling in cryopyrin associated periodic syndromes (CAPS)                                                           | Prof. dr. A. Martini/IRCCS G. Gaslini                             | 1-4-2015  |
| Prio   | 113205008 | Rare disease: use of clinical trial simulation for the choice and optimization of study design                                                                        | Dr. P. Nony                                                       | 1-9-2014  |

|      |           |                                                                                                                                                                                                                                         |                                                           |           |
|------|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------|-----------|
| Prio | 113205022 | Paediatric Accelerator Mass Spectrometry Evaluation Research Study                                                                                                                                                                      | Prof. dr. B.K. Park                                       | 1-2-2015  |
| Prio | 113205026 | Validating non invasive imaging of the serotonergic- and dopaminergic system and adult neurogenesis with MRI; towards a better insight in the neurobiological mechanisms underlying psychiatric disorders in the paediatric population. | Dr. L. Reneman                                            | 1-2-2015  |
| Prio | 113205027 | Acute lymphoblastic leukemia, children, minimal residual disease, flow cytometry                                                                                                                                                        | Dr. T.S. Szczepanski MD PhD                               | 1-7-2014  |
| OR2  | 836021022 | Childhood Infections Limburg (CHILI):                                                                                                                                                                                                   | Dr. J.W.L. Cals                                           | 1-5-2018  |
| PMK  | 113202006 | Exposure to the biological Anti-Thymocyte Globulin (ATG) and reconstitution of the immune system in children receiving allogeneic-Hematopoietic Stem Cell Transplantation (HSCT): Towards individualized dosing to improve survival     | Dr. J.J. Boelens/Universitair Medisch Centrum Utrecht     | 1-4-2016  |
| PMK  | 113202008 | Neurogenic bladder in children: treatment with intravesical anticholinergics and use of feed-back tools.                                                                                                                                | Dr. D.J. Kok/ Erasmus MC                                  | 1-12-2017 |
| PMK  | 113202010 | Relevance of germline genetic variations for treatment response in pediatric osteosarcoma patients                                                                                                                                      | Dr. D.M.W.M. te Loo/Radboud Universiteit Nijmegen         | 1-4-2015  |
| EJ   | 113203006 | Development and use of a standardised instrument for assessing children's competence to consent in drug trials: are legally established age limits valid?                                                                               | Drs. | DG    | 152001001  | Treatment of Fabry disease with the orphan drugs agalsidase alfa en agalsidase beta in the Netherlands: Health Technology Assessment related to Orphan Drug reimbursement policy.                                                                      | Prof. dr. C.E.M. Hollak/ AMC                                     | 1-10-2011  |
| DG    | 152001002  | Cost-effectiveness and outcome of current treatment strategies in exudative age-related macular degeneration                                                                                                                                           | Dr. J.S.A.G. Schouten / Maastricht Universitair Medisch Centrum+ | 16-12-2011 |
| DG    | 152001003  | Mucopolysaccharidosis type VI: Natural course, effects of enzyme therapy and health economic aspects. Long-term follow-up of untreated patients and patients receiving commercially available galsulfase (Naglazyme)                                   | Prof. A.T. van der Ploeg / Sophia Kinderziekenhuis               | 1-10-2011  |
| DG    | 152001004  | Mucopolysaccharidosis type II: Natural course, effects of enzyme therapy and health economic aspects. Long-term follow-up of untreated patients and patients receiving commercially available Idursulfase (Elaprase)                                   | Prof. A.T. van der Ploeg / Sophia Kinderziekenhuis               | 1-10-2011  |
| DG    | 152001005  | Effects and health economic aspects of enzyme therapy in children and adults with pompe disease. Long term follow-up of patients receiving commercially available alglucosidase alfa (Myozyme).                                                        | Prof. A.T. van der Ploeg / Sophia Kinderziekenhuis               | 1-10-2011  |
| DG    | 152001006  | An independent prospective randomised controlled trial comparing the efficacy and cost effectiveness of infliximab and etanercept in 'high need' patients with moderate to severe chronic plaque type psoriasis                                        | Dr. Ph.I. Spuls / AMC                                            | 1-10-2012  |
| DG    | 152001007  | Impact of new systemic treatments of patients with hematological malignancies in the Netherlands: population-based cohort studies of process and outcome as a basis for assessments of cost-effectiveness.                                             | Prof. C.A. Uyl-de Groot / Erasmus Universiteit Rotterdam         | 1-10-2014  |
| DG    | 152001008  | More customized, cost-effective use of biologicals in treatment of rheumatoid arthritis.                                                                                                                                                               | Dr. A.C.A. Marijnissen / UMCU                                    | 1-1-2015   |
| DG    | 152001009  | Real world efficiency of Bevacizumab in Advanced Breast Cancer                                                                                                                                                                                         | Prof. dr. V.C.G. Tjan-Heijnen / MUMC                             | 1-12-2012  |
| DG    | 152001010  | A multi-centre cost-effectiveness evaluation of a novel treatment option in the Netherlands: Photo Dynamic Therapy with temoporfine for the treatment of advanced incurable head and neck cancers, for whom prior conventional treatments have failed. | Prof. dr. I.B. Tan / NKI                                         | 1-2-2013   |
| DG    | 152001011  | National registry for the evaluation of treatment patterns, guideline adherence and use of expensive anti-fungals.                                                                                                                                     | Prof. dr. B.J. Kullberg / UMC St Radboud                         | 20-4-2012  |
| DG    | 152001012  | A cost-effectiveness and quality of life study on MAL-PDT in actinic keratoses and basal cell carcinoma                                                                                                                                                | Dr. M.J.P. Gerritsen / UMC St Radboud                            | 31-12-2013 |
| DG    | 152001013  | Basal cell carcinoma and actinic keratoses in the Netherlands: how often do they occur and who are at risk?                                                                                                                                            | Dr. T.E.C. Nijsten / Erasmus MC                                  | 1-1-2013   |
| DG    | 152001014  | Impact of new approaches to pharmacological management of patients with renal cell carcinoma: a population-based study of process and outcomes in The Netherlands.                                                                                     | Prof. C.A. Uyl-de Groot / Erasmus Universiteit Rotterdam         | 1-4-2014   |
| DG    | 152001015  | SELDI-TOF analysis to predicted rituximab treatment outcome in rheumatoid arthritis patients.                                                                                                                                                          | Dr. M.J.H. Coenen / UMC St Radboud                               | 1-6-2015   |
| DG    | 152001016  | Real world Efficiency of Trastuzumab in Early Breast Cancer                                                                                                                                                                                            | Prof. dr. V.C.G. Tjan-Heijnen / MUMC                             | 1-5-2013   |
| DG    | 152001017  | Biomarkers for improving the cost-effectiveness and safety of pemetrexed                                                                                                                                                                               | Prof. dr. B.H.C. Stricker / Erasmus MC                           | 1-11-2015  |
| DG    | 152001019  | Impact of new approaches to the management of patients with recurrent and/or metastatic squamous cell carcinoma of the head and neck (RM SCCHN: a population-based study of process and outcomes in The Netherlands.                                   | Prof. C.A. Uyl-de Groot / Erasmus Universiteit                   | 1-11-2013  |
| DG    | 152001020  | Treatment Sequencing in Multiple Myeloma: modeling the disease and evaluating cost-efficacy vs. cost-effectiveness                                                                                                                                     | Prof. dr. P. Sonneveld / Erasmus MC                              | 1-5-2015   |
| DG    | 152001021  | Eculizumab in patients with classic PNH: a cost effectivity study.                                                                                                                                                                                     | Dr. P. Muus / UMC St Radboud                                     | 1-4-2015   |
